

Driving Range Proposal

GOAL:

Consider a proposal to change the driving range located in the back of Hole #5 from “hit your own balls” to “hit driving range balls supplied by the club.”

OBJECTIVE:

To affordably increase the memberships’ options for practicing, by adding a usable driving range to accommodate more than 1 or 2 people at one time without any additional cost to those that do not intend to use the facility.

DETAILS:

- The range will be available for use only to full members, restricted members, associate members, and guests of members. Guests must buy bags or buckets of balls.
- Annual memberships to use the driving range will be offered for \$100 (billed over 10 months); or pay as you go for a nominal fee.
- The range will be open for use during the normal golf season, defined by when tee times start and end. The normal golf season is from 1 April to 30 November.
- Hitting your own balls and picking them up will not be allowed during the season but will be allowed during off season dates. The off season is from 1 December to 31 March.
- Access to the range will be by golf cart only. If you do not own a cart, the pro shop will either loan you a cart or if none are available the pro shop staff will bring you down and pick you up.
- No automobiles will be allowed to drive out to the practice area. This will help eliminate nonmembers from using our range.
- The short practice area between holes #6 & #7 will be available for use to hit your own balls as it has been previously.

SUMMARY:

Membership and use of the range will be totally voluntary. Options will be as follows:

- A. Join the range and get unlimited balls for an annual fee of \$100.00. Fees will be billed with our dues at \$10.00 per month. (10 monthly billings)
- B. Pay for balls by the bag or bucket, prices to be determined.
- C. Just don’t use the range.

Thank You, the Driving Range Committee
